

Case Study 5

A leading provider of Global Benefit Solutions was looking to harmonise terms and conditions following the merger of two companies to create a new legal entity.

We project managed and produced all the revised contract documentation for 3,000 Associates in the UK and Eire, using personal, compensation and benefits data from 3 separate sources.

65 mail merge fields were used, and 81 conditional paragraphs in a document that could vary from 15 to 23 pages in length.

Over 38,000 pages containing 12,242,585 words were printed and distributed to the agreed time scales and within budget.
